# A STRATEGIC GLOBAL ALLIANCE

Oswar Rotocorp operates under the strategic framework of OSWAR Japan – a powerful industrial collaboration that brings together structured Japanese engineering discipline and advanced Indian manufacturing excellence.

This partnership represents a long-term alignment focused on quality consistency, precision standards, and sustainable industrial growth. By combining the technical rigor and systematic approach of Japan with scalable and efficient production capabilities in India, Oswar Rotocorp delivers globally competitive rotary airlock and feeding solutions.

# PRECISION ENGINEERED UNDER GLOBAL STANDARDS

Under the OSWAR Japan framework, every rotary airlock system is developed through disciplined design methodologies, strict dimensional control, and performance-driven engineering practices. The integration of Japanese operational philosophy emphasizes consistency, accuracy, and process optimization. This ensures stable volumetric performance, minimal air leakage, reduced wear, and extended service life across demanding applications.

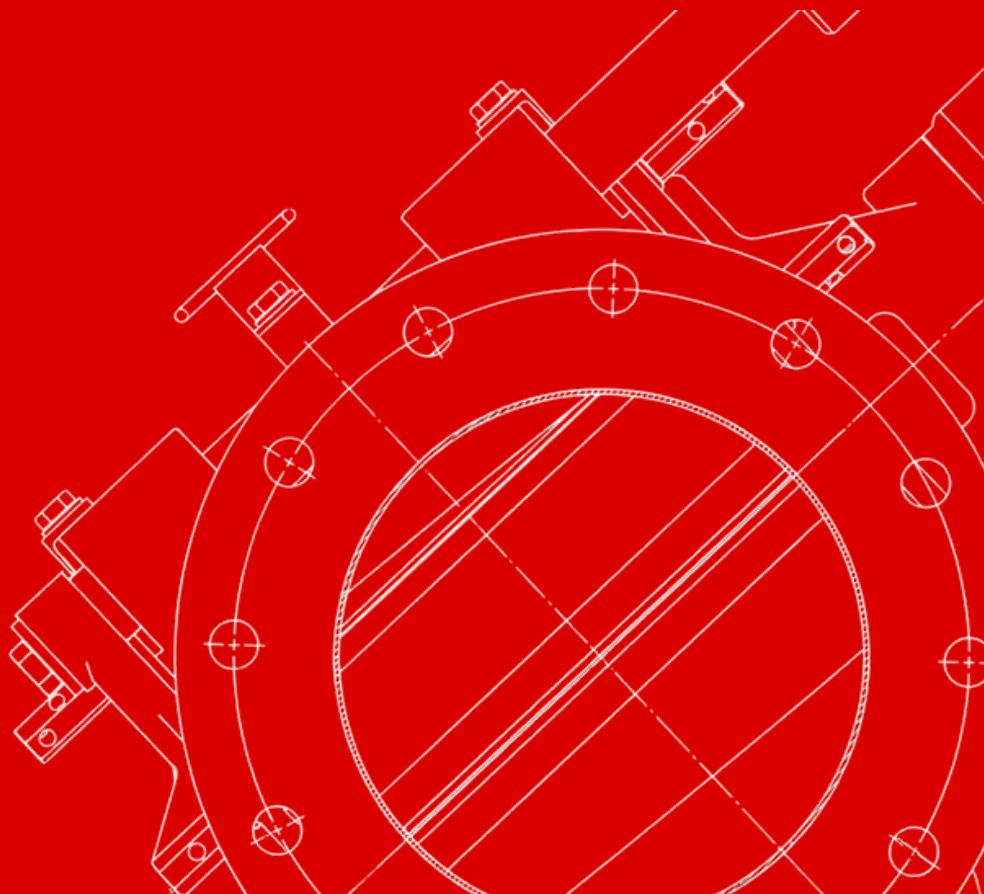

## MANUFACTURING & QUALITY

- Precision CNC machining aligned with global tolerances
- Controlled rotor clearances for maximum efficiency
- Advanced wear-resistant surface treatments
- Heavy-duty bearing protection systems
- Optimized sealing geometry to reduce energy loss

# **SERVING GLOBAL INDUSTRIES WITH CONFIDENCE**

- **Cement Manufacturing**
- **Power Generation & Boilers**
- **Fertilizer & Chemical Processing**
- **Steel & Lime Industries**
- **Mining & Mineral Handling**
- **Sugar & Bio-Energy Plants**
- **Ceramics & Glass Manufacturing**
- **Food & Pharmaceutical Processing**
